* All units come standard with a natural gas to propane gas conversion kit

About Ecoer

The Most Innovative Residential Ducted Heat Pump and AC System Available

Since 2016, at Ecoer we've used our proprietary and patented Inverter and "Smart" IoT Technology to create the best ducted Residential Air Conditioner and Heat Pump Systems available. Period.

Our passion and commitment to excellence has bolstered our tremendous growth into multiple locations in four countries; from our US base, to Canada, Japan, and China.

Ecoer is meant for everyone. Our clearly-defined corporate goals are to provide the best high-efficiency product at an affordable price, simplifying the inverter installation process, and connecting the contractor to homeowners and their systems.

By staying true to our original mission, we will see our inverter technology used more often in the US residential market. We have a boundless determination toward making the process easier and faster for the contractor; all while saving the homeowner significant money on their power bills and making the world just a bit greener!

It matters who you choose for your air conditioner and heat pump systems.

We're here, and we're ready to help!

**Ecoer's Mission Statement is:
Making your home Green and Smart.**

ECOER GAS FURNACE

96% AFUE High Efficiency

Ecoer Furnace

MGH Series

Ecoer Furnace Will Warm Your Home

Ecoer launched its first condensing furnace MGH series. It is an ideal solution for heating your home with an AFUE heating efficiency of 96%. Ecoer utilizes multiple technologies to provide its customers a high-quality furnace that saves energy. At Ecoer, we believe it is time for a new era of heating through your furnace.

Ecoer is committed to creating a comfortable home environment. The MGH Series furnace will heat your entire home while providing the warmth your family needs during the winter months.

Features

- 96% AFUE
- Energy Star Rated
- Two-Stage Design

- Multipoise Design
- 13-ECM Motors
- Flexibility

Benefits

- High Efficiency:** Up to 96% AFUE heating efficiency that is ENERGY STAR rated.
- Comfortable:** Designed with two-stages to prevent drastic temperature swings and to keep your furnace running longer.
- 3-way multipoise design:** Flexibility in multiple types of installations, available in upflow(right or left return) and horizontal orientations.
- Hassle-free installation:** All furnaces come standard with a natural gas to propane gas conversion kit.
- 2 stage x13 ECM motors:** All Ecoer models operate efficiently and quietly.
- Hot-surface ignition:** Dependable ignition, more reliable performance.
- Durable parts:** Durable aluminized steel tubular heat exchanger and stainless-steel secondary heat exchanger.
- Pairs with Ecoer heat pump:** Achieving up to 18 SEER.
- Compact design:** Low Profile cabinet construction allows for installation in tight spaces. Convenient left or right-hand connection for gas and electric service.
- High-quality cabinet:** The cabinet is painted galvanized steel with an anti-rust coating, that passes a 500-hour salt spray test.
- LED fault diagnostics:** Quick and easy service calls.

Why Ecoer

96% Efficiency

- Up to 96% AFUE heating efficiency
- ENERGY STAR rated
- Save on your energy bills
- Economical for your family
- High and Low Fire Setting
- Easy Switch

Flexibility

Multiple types of installations
Available in up-flow (right or left return) and horizontal orientations

Pairs with Ecoer Heat Pump

Works well with Ecoer products, achieving up to 18 SEER

Warranty

- 5-year parts limited warranty
- 20-year heat exchanger limited warranty

Note:
(1) For full details on the warranty terms and conditions visit www.ecoer.com
(2) Required to be qualified for local regulations and HVAC standards

COMPONENTS

- A** Air Intake
- B** High/Low Fire Pressure Switches
- C** Ignitor
- D** Burners
- E** Flue
- F** Flame Sensor
- G** Gas Valve
- H** Inducer
- I** Condensate Overflow Switch
- J** Secondary Heat Exchanger
- K** Control Board
- L** Blower Motor

Warm Your Home with Ecoer Gas Furnace
